

AGENDA

2005 ENERGY REPORT COMMITTEE WORKSHOP ON GEOTHERMAL – RENEWABLE ISSUES

**MONDAY, APRIL 11, 2005
Hearing Room A
9:30 AM**

- I. Opening Comments (Commissioner John Geesman)
- II. Background and Scope (Don Kondoleon, Energy Commission)
- III. In-State and Nevada Geothermal Resources (Jim Lovekin, Geothermex)
- IV. Facilitating Geothermal RPS Supplies (Steve Munson, Vulcan Power Company)
- V. Imperial Valley Study Group Update (Dave Olsen, Center for Energy Efficiency and Renewable Technologies)
- VI. Imperial Irrigation District's "Green Path" Initiative (Frank Barbera, Imperial Irrigation District)
- VII. San Diego Gas Electric's Interconnect Project (David Geier, SDG&E)
- VIII. Strategic Value Analysis – Geothermal Chapter (Elaine Sison-Lebrilla, Energy Commission)
- IX. Transmission Pathways into California: Possible AC and DC Transmission Lines (Ron Davis, Davis Power)
- X. Stakeholder Panel Discussion (Elaine Sison-Lebrilla, Energy Commission, Moderator)
- XI. Closing Remarks

Panel Discussion Questions

What can/should the state be doing to promote the development of geothermal resources within California? What obstacles exist?

How can/should the state improve access to the electricity grid by new geothermal resources, both short-term and long-term?
